Mike Pollio January 6, 1986

Heide Ulbrich

ALPINE MENTHOL SINGAPORE PROJECT

Under separate cover, you will be receiving the following mechanicals:

- Alpine 85mm SP 20's Carton
- Alpine 80mm FTB 10's
- Alpine 80mm FTB 10's Carton
- Alpine Tipping Paper

Please refer to my memo of December 16 for all quantities and shipping details.

As you indicated, films for the 20's SP label will be submitted for approval next week.

Artwork for 10M shipping cases for both the 20's and 10's will follow by January 17.

As we discussed, the legend "Made in U.S.A." appearing on the front panel of the 10's box should be repeated on the back panel as well; the Singapore HW should be stripped in from the master film.

The above art boards were to have been received in Richmond by the 20th of December and items were tentatively scheduled for printing the week of February 10, 1986. Since there was more than a two week delay in receiving the art work, let me know if this date has to be adjusted.

Thank you for your cooperation.
